

LAUNCHING APRIL 22, 2021 | 9:00 A.M. PDT

09:23:38:16

[Click here for broadcasts in your timezone](#)

Join us on April 22 for the main event, Tech Skills Day—a broadcast featuring inspiring speakers and industry experts celebrating technology and what it can create.

[+ ADD TO CALENDAR](#)

AARON SKONNARD

LEVAR BURTON

Multi-talented actor LeVar Burton is best known for his role as Lieutenant Commander Geordi Laforge in syndicated science fiction hit Star Trek: The Next Generation and his role as "Kunta Kinte" in television miniseries Roots, which broke viewing records and inspired a national discussion on the issue of race. He is also host and co-producer of the long running, Emmy-winning PBS educational series Reading Rainbow.

Featured guests

LEVAR BURTON

Multi-talented actor LeVar Burton is best known for his role as Lieutenant Commander Geordi Laforge in syndicated science fiction hit Star Trek: The Next Generation and his role as "Kunta Kinte" in television miniseries Roots, which broke viewing records and inspired a national discussion on the issue of race. He is also host and co-producer of the long running, Emmy-winning PBS educational series Reading Rainbow.

JEREMY MORGAN

HOST
Consultant, tech blogger and awesome speaker. Jeremy Morgan likes to stay immersed with the latest in .NET development and DevOps during the day and works on Linux machines and microcontrollers at night.

SCOTT HANSELMAN

Scott Hanselman is a web developer, Pluralsight author and speaker. He works in open source on ASP.NET and the Azure Cloud for Microsoft out of his home office in Portland. Scott has three podcasts, has written a number of books and spoken in person to almost a half million developers worldwide.

CASSIDY WILLIAMS

HOST
Cassidy is a Principal Developer Experience Engineer at Netlify. She's active in the developer community, and one of Glamour Magazine's 35 Women Under 35 Changing the Tech Industry and LinkedIn's Top Professionals 35 & Under.

DEBORAH KURATA

Deborah Kurata is a software developer, consultant, conference speaker and Pluralsight author. For her work in support of software developers, she has been recognized with the Microsoft Most Valuable Professional (MVP) award and is a Google Developer Expert (GDE).

MONA CHALABI

Mona Chalabi is a data journalist in New York. Her work has appeared in The New Yorker, The New York Times, The Guardian, as well as NPR, Gimlet, Netflix and many more. Before she became a journalist, Mona worked with large data sets in jobs at the Bank of England, Transparency International and the International Organization for Migration.

JOHN PAPA

John Papa is a Principal Developer Advocate with Microsoft and an alumni of the Google Developer Expert, Microsoft Regional Director and MVP programs. John is a co-host of the popular Adventures in Angular podcast and author of the Angular Style Guide, several books and many popular Pluralsight courses.

APRIL SPEIGHT

April Speight is an author, developer and style aficionado from Los Angeles. She began her career in luxury fashion as a menswear stylist and visual merchandiser, but in 2013, she made her transition to working in IT. She's since been dabbling in coding (primarily Python, some C# and JavaScript) and has found her forever home within Developer Relations at Microsoft.

TROY HUNT

Troy Hunt is an Australian Microsoft Regional Director and Microsoft Most Valuable Professional for Developer Security. He also creates courses for Pluralsight and travels the world speaking at events and teaching technology professionals. You'll regularly find him in the press talking about security and even testifying before the U.S. Congress on the impact of data breaches.

Celebrate Tech Skills Day as a team

Follow these tips and download our watch party kit to make the day extra special.

STEP 1 Invite your team members to join

- Download our sample 'Save the date' email to send to your team
- Use our suggested messages to share Tech Skills Day on internal company channels like Slack

[DOWNLOAD THE GERMAN KIT](#)

[DOWNLOAD THE FRENCH KIT](#)

STEP 2 Get people excited

- Share the event on social media and encourage other learners to do so as well. Let's get everyone hyped!
- Set goals for your team around the event, like getting their Skill IQ or practicing their skills with our new hands-on labs and sandboxes*
- Encourage participation in the coding challenges prior to Tech Skills Day. Get your team competing against other developers around the globe
- Make sure to tune in to the Tech Skills Day broadcast to get inspired by our awesome speaker lineup

* Hands-on labs and sandboxes are available on an enterprise plan or as an add-on.

STEP 3 Make it a party

- Create your own unique watch party for teams to come together
- Order lunch or provide lunch delivery for your in-office or remote teams during the event
- Play Tech Skills Day bingo, give away prizes and motivate learners to earn their Tech Skills Day badge

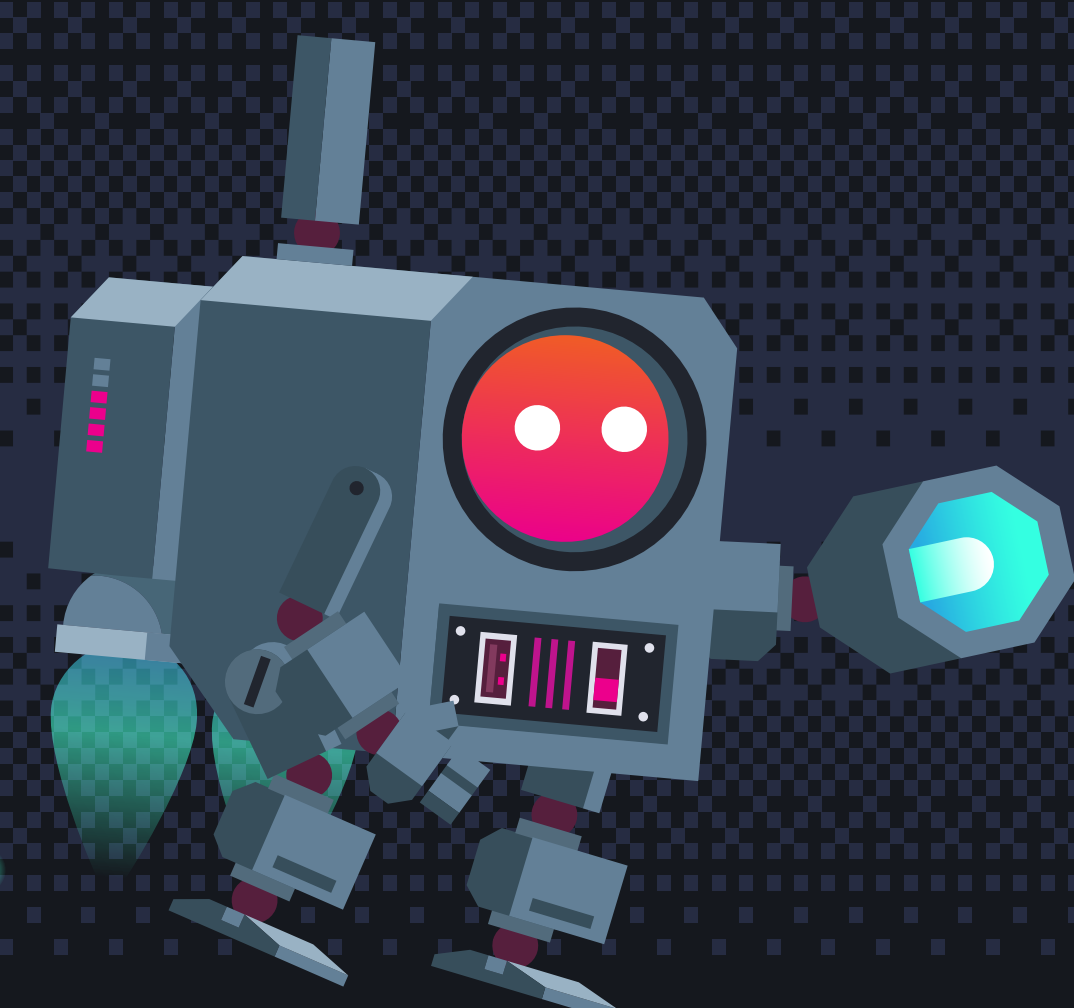

STEP 4 Celebrate and follow up

- Celebrate those who participate with personal shout outs
- Follow up on the importance of skills and why continuous learning is important
- Share the Tech Skills Day recordings from this page or from the conferences section in-app with those that couldn't attend

LEARN MORE ABOUT FUN TEAM ACTIVITIES LEADING UP TO TECH SKILLS DAY AND WHAT TO LOOK FORWARD TO AT TECHSKILLSDAY.COM

Want to customize your watch party? Connect with your Pluralsight rep and we'll get you set up with the perfect Tech Skills Day experience for you and your team.
